

Currently, six laboratories, organized into three research and development divisions, are in full operation at the Institute. The activities of the laboratories are supported by a horizontal technical division, which involves the large pilot-plant units and the analytical department. More specifically, the present organisation of CPERI has as follows:

- [Laboratory of Environmental Fuels and Hydrocarbons](#)
- [Laboratory of Polymer Reaction Engineering](#)
- [Laboratory of Natural Resources and Renewable Energies Utilization](#)
- [Aerosol and Particle Technology Laboratory](#)
- [Laboratory of Inorganic Materials](#)
- [Laboratory of Process Systems Design and Implementation](#)
- [Biological Computation & Process Laboratory](#)
- [Analytical Services Unit](#)
