

DOCTORAL DISSERTATIONS

In Progress

- | | | |
|----|--------------------|--|
| 1. | Komvokis, V | ., "Synthesis, characterization and evaluation of new nano-structured catalytic materials" |
|----|--------------------|--|
-

Completed

- | | | |
|----|------------------------|---|
| 1. | Bollas G. | , "Dynamic simulation, optimization and control of flexible catalytic systems" |
| 2. | Christoforou S. | , "Selective catalytic reduction of NOx with hydrocarbons" |
| 3. | Heracleous E. | , "New selective catalytic process of ethylene production" |
| 4. | Iliopoulou E.F. | , "Reduction of NOx emissions from the flue gases of internal combustion engines" |
| 5. | Machli M. | , "New catalytic materials structure and activity study" |
| 6. | Valla, I. | , "Development of new catalytic systems and processes" |
-

DIPLOMA THESIS

- | | | |
|----|-----------------|--|
| 1. | Marti M. | (2004), "Study of the synthesis, hydrothermal stability and acidic properties of aluminosilicates" |
|----|-----------------|--|

- | | | |
|-----|------------------------|---|
| 2. | Karakoulia S. | (2004), "Preparation and Characterization of zeolites" |
| 3. | Panou C. | (2004), "Modeling of Thermo-programmed reduction" |
| 4. | Gogaki S. | (2004), "Study of the division mechanisms of the pre-catalytic materials" |
| 5. | Panou K. | (2004), "Modeling of Thermo-programmed reduction" |
| 6. | Psarras A. | (2004), "Mechanisms of sulphur reactions during the catalytic process" |
| 7. | Nikolopoulos O. | (2004), "Biomass pyrolysis" |
| 8. | Mouriki E. | (2004), "Study of the division of heavy sulphides during the catalytic process" |
| 9. | Galatsianou M. | (2003), "Hydrogen production technologies review" |
| 10. | Evdou A. | (2003), "Study of Catalysts Ag/Al2O3 in selective catalytic reduction" |
| 11. | Boudouris C. | (2003), "Mathematical modeling of thermal oxidative catalytic process" |
