

On behalf of the Organizing Committee, we would like to cordially invite you to participate in the International Conference on Biofuels for Sustainable Development of Southern Europe (Bio4SuD) to be held in Thessaloniki (Greece) on 19-20 November, 2012. This conference is organized as part of the BIOFUELS-2G demonstration project funded by the European Union and the LIFE+ Programme.

The [Bio4SuD conference](#) aims to:

- highlight promising R&D activities in the fields of biofuels production
- present demonstration projects of key 2nd and 3rd generation biofuels production technologies
- promote networking between academic and industrial stakeholders and
- initiate Private-Public Partnerships (PPPs).

All academic, research and industrial stakeholders active in the area of biofuels technologies and related areas are invited to participate in the conference.

S. Voutetakis and S. Bezergianni
Co-chairs of the Bio4SuD conference
