

SCIENTIFIC SEMINARS

Academic Period 2002-2003

E. KIKKINIDES, Researcher, Chemical Process Engineering Research Institute/CPERI.

Stochastic Simulation of Structural and Physicochemical Properties of Nanoporous Materials.

Wednesday, 15/01/2003

D. NIARCHOS, Director of Research, IMS, NCSR "DEMOKRITOS".

Quantum Magnetic Dots as Model Structures for Exciting Applications.

Wednesday, 29/01/2003

P. POMONIS, Professor, Dept. of Chemistry, University of Ioannina.

Morphological Properties and Topological Features of Porous Solids.

Wednesday, 12/02/2003

D. THEODOROU, Professor, Dept. of Materials Science and Engineering, NTU.

Structure-Property Relationships in Polymeric Materials from Novel Computational Techniques.

Wednesday, 26/02/2003

A. TSIFTSOGLU, Professor, Dept. of Pharmacology, AUTH.

Production of Recombinant Human Proteins from GMOs and Delivery to Tissues.

Wednesday, 12/03/2003

X. VERYKIOS, Professor, Dept. of Chemical Engineering, University of Patras.

Hydrogen Production via Catalytic Reforming of Natural Gas or Bio-ethanol for Fuel Cell Applications.

Wednesday, 26/03/2003

V. PETRIDIS, Professor, Dept. of Electrical and Computer Eng., Faculty Engineering, AUTH.

Cognitive Systems and Applications. From Information to Meaning.

Wednesday, 09/04/2003

G. THEODOROU, Professor, Dept. of Physics, AUTH.

Modeling of Electronic and Optical Properties of Semiconductor Nanostructures.

Wednesday, 07/05/2003

**LECTURES WILL BE HELD AT THE HALL "AIOLOS"
RESEARCH AND TECHNOLOGY HELLAS - CERTH AT 12:00 AM.**
